 Steve,

Unfortunately all the numbers were busy **but** I did get a call from Ms. Jean Marie Cencetti (Director of Env. and Sustainable Development for Arkema; 610-878-6632) at 0632 hours today. She provided me with an update. Facility is out of power but has diesel powered cooling trailers and enough fuel to cool for 6 days.

There is no offsite discharge or fire at this time. Rideout crew (10 personnel) have boats to leave site if necessary. The did provide an update to David Wade (LEPC POC) last night to inform him of the facility's situation.

Additionally, I believe I may have found an article regarding the Northern Houston water treatment plant you were referring to? <http://www.chron.com/news/houston-texas/houston/article/City-working-to-keep-operating-water-plant-12112233.php>

If you are still needing information please feel free to contact me (b) (6) and I'll poke around for information.

All the best,

**Catherine Sotelo**

**Subject:** Arkema Crosby Plant (TX) Inundation/Potential Fire  
Good Morning Steve,

I was just looking for point of contact's for the Arkema Crosby Plant facility .

I have tried phone numbers for Crosby FD, Crosby Volunteer FD, Harris County OEM, David Wade (Greater Harris County LEPC Industrial POC/OEM Member), Crosby Fire Marshall, Harris County Pollution Control Services, and Arkema General ER Media Relations, to get information however, it's been very difficult to get facility point of contact information or at the very least, general situational awareness.

We haven't received any notifications via NRC or SERC regarding this facility in the past few days since Hurricane Harvey.

Here is a link to the article from which I became aware of the situation:

<http://www.chron.com/neighborhood/humble/news/article/Reports-of-chemical-plant-emergency-in-Crosby-12123269.php>

## [Workers reportedly trapped inside flooded chemical plant in Crosby](#)

[www.chron.com](http://www.chron.com)

Twelve workers were reportedly trapped early Tuesday morning at a Crosby chemical plant on the brink of catching fire as firefighters were on the way, according to the wife of one of the workers.

---

Thank you!
